

Aluminium Descaler

Multi Purpose Cleaner Descaler

NW: 11096

Directions Dilute 1 part to 5 parts water. Brush the solution onto the surface to be cleaned starting at the bottom. Then thoroughly agitate the surface with a brush to remove loose dirt. Rinse off with water. For stubborn tarnishing the contact time may be increased or the product may be used more concentrated. Extra care should be taken when using neat material. N.B. Do not allow detergent to dry out onto aluminium. Do not use on magnesium alloy or anodised surfaces. If in doubt seek manufacturer's advice.

Composition	An advanced blend of acids and surfactants specially formulated to clean and brighten aluminium and its alloys.
Appearance	Clear Liquid
Colour	Colourless
Cloud Point	>50°C
Density	1.1
pH	<1
Fragrance	Light Acidic
Stability	Two years minimum in unopened containers at ambient temperature.

Environmental Profile

All surfactants contained in **Clean and Clever** products meet the requirements of the EU Detergent Directive 2005 – 2004/648/EC. This requires all surfactants to break down both quickly and completely into harmless material such as CO₂ and water.

Nationwide[®]
HYGIENE GROUP

Description of Product

For the cleaning and brightening of aluminium and its alloys. Also suitable for the descaling of industrial and kitchen equipment.
