Technical information

Research & Development Corner

Shiny, fast drying results with the trusted power of Fairy

Water contains mineral compounds which can lead to limescale deposits and watermarks on your machine and dishware.

The selected polymers in Fairy Concentrated Rinse Aid helps prevent this build up; instead of forming droplets, water sheets off surfaces, delivering shine that you and your customers expect.

Technical Description

- **EAN code:**
- **Appearance:** Liquid
- **Color:** Colored
- **Smell:** Odorless
- **PH (10%):** 2.5 to 3.5
- **Density:** 1100 g/l
- **Water solubility:** High

Safety Instructions

Please make sure your employees read and understood the product label and your COSHH assessment (Chemical Risk Assessment in EU) before using this product. The label contains directions for use and both label and SDS contain hazard warnings, precautionary statements, first aid procedures and storage information. SDS are available on-line at our website www.pgpro-msds.com or can be provided to you via the call center.
