

Comfort Professional Concentrate

Fabric Softener

Benefits

- ▶ Concentrated formulation gives three times more washes per 5L than dilute
- ▶ 142 washes per 5L
- ▶ Effective softening of laundry
- ▶ Reduces charge
- ▶ Delivers a pleasant and long lasting fragrance

Key properties

- ▶ Concentrated Fabric Conditioner formulated for use in domestic and on premise laundries.
- ▶ The product is suitable for use on most types of fabric and is manually dosed in the rinse cycle.
- ▶ The main benefit is the lubrication of fibres, reducing the effect of damage during washwear cycles and preventing tangling and interlocking.
- ▶ It reduces the build-up of static charge and facilitates ironing because of reduced friction between iron and fabric.
- ▶ Contains a pleasant perfume, which is delivered on fabrics very effectively via cationic particles, acting as a carrier. Consequently fabric will retain a pleasant fragrance for much longer.

Product Description

Comfort does not only provide exceptional softness and fantastic fragrances; using Comfort in every wash leaves clothes feeling soft and gentle on your skin, helps your clothes to breathe and protects the colours of clothes. It also helps to keep clothes looking newer for longer, and after washing it speeds drying times and helps make ironing easier.

Available in 5 fragrances:
Original, Pure, Tropical Burst, Sunshiny Days and Deosoft.

Comfort Professional Concentrate

Directions For Use

- ▶ Dose straight into your washing machine drawer
