

Suma[®] Bac conc

Highly concentrated detergent disinfectant / sanitiser

Description

Suma Bac conc D10 conc is a highly concentrated detergent disinfectant / sanitiser for the cleaning and disinfection of all surfaces in food premises, e.g. food preparation surfaces and fridge handles.

Key properties

Suma Bac conc D10 conc is a combination of a Quaternary Ammonium Compound, a sequestrant and a buffer system making it very effective against a wide range of micro-organisms, in all water conditions. The formulation also contains surfactants to provide excellent cleaning power. Suma Bac conc D10 conc dosing is controlled through the Diversey Care Divermite dispenser making the product very economical in use.

Benefits

- Reduces waste, needs less storage capacity and gives excellent economy in use due to highly concentrated formulation
- Suma Bac conc D10 conc can be used to clean as you go
- Cuts through grease and dried-on food soiling
- Effective against a wide spectrum of micro-organisms, helping to improve hygiene security
- Effective in all water conditions

Use instructions

Suma Bac conc D10 conc is supplied in flexible 1.5 L plastic pouches designed to fit into the Diversey Care Divermite Dispenser.

Spray Cleaning and Disinfection

1. Fill up the bottle with water. Insert bottle in the Divermite dispenser and push once (10 ml minimum / 750 ml -1.3%)
2. Remove gross debris
3. Spray D10 solution and wipe
4. Re-spray D10 solution and leave for a minimum of 30 seconds
5. Wipe the surface
6. Rinse and air dry

A made up spray bottle of product will be active for up to seven days. Rinse and dry bottle before refilling.

Soak cleaning and disinfection:

1. Use at a concentration of (60 ml) in 6 L of hand hot water
2. Remove excess soil
3. Soak items to be disinfected in solution for minimum of 5 minutes
4. Remove items and wipe if necessary
5. Rinse and air dry
