

## Domestos Professional Mould Free

### Removes Mould and Mildew From Between Tiles

#### *Product description*

Domestos Professional Mould Free clings to vertical surfaces making it ideal for use on grout between tiles to quickly remove mould and mildew. The chlorine based formulation cleans stubborn stains and removes bacteria at the same time.

#### *Features*

- Fast acting thick formula
- Sticks to vertical surfaces

#### *Benefits*

- Effective grout cleaner
- Removes stubborn stains
- For all water resistant surfaces
- Sparkling results

#### *Pro Formula*

The Pro Formula product range combines the familiarity of a recognised brand with the cleaning power needed for the demands of a business. Those demands can often cost a business valuable time and if not addressed correctly can cost a business its reputation and customer base.

Our Pro Formula products utilise over 50 years professional cleaning knowledge and experience from Diversey with one of the world leading laundry and surface cleaning consumer goods brands.

The range consists of products which target the truly professional business needs with professional formulations and in addition have the backup resources from Diversey through an end user portal.

By giving you excellent cleaning results first time, every time, you can have the time and peace of mind to be able to focus on your core business such as serving your customers or caring for your residents.

## Domestos Professional Mould Free
