

## Brillo® Cleaner & Degreaser

### The professional choice for kitchen cleaning

- Cuts through grease
- Safe on aluminium
- Suitable for all kitchen areas

#### Cuts through grease

- Brillo Cleaner & Degreaser is a concentrated heavy duty liquid detergent for kitchen areas and equipment. Its powerful professional formulation penetrates, lifts and dissolves animal fats, grease, blood, protein and other ground-in soilage without hard scrubbing.

#### Safe on aluminium

- Brillo Cleaner & Degreaser is made of a special blend of non-caustic detergents and solvents. Not only is Brillo Cleaner & Degreaser non-tainting and odourless, the product is also easy to rinse. This makes it safe for use in all food preparation areas.

#### Suitable for all kitchen areas

- Brillo Cleaner & Degreaser is suitable for use on hard surfaces in the kitchen including cooker tops, canopies, filters, floors, walls, doors, grease traps, drains and gullies, to remove all kitchen soils including grease, fat, starch and proteins.

## Brillo Cleaner & Degreaser

Brillo Cleaner & Degreaser is a powerful degreaser, which cuts through all kitchen grease, including floors, walls and general hard surfaces.

### Use instructions

- For general grease cleaning, dilute at 1:40 (5x28ml pelican pump to 5 litre bucket).
- For heavy grease build-up, dilute at 1:20 (9x28ml pelican pump to 5 litre bucket).
- On floors, remove all loose soilage from the floor. Apply a solution of Brillo Cleaner & Degreaser at the required dilution with a mop. Allow the solution to penetrate for up to 5 minutes before cleaning and rinsing off with hot water.
- On work surfaces and walls, cover or remove all food products and remove any loose soilage. Apply a solution of Brillo Cleaner & Degreaser at the required dilution with a sponge cloth, scouring pad or through a trigger spray bottle. Rinse thoroughly with hot water and leave to dry.
- On deep fat fryers, turn off heat, drain oil and remove sediment with hot water. Fill fryer with a solution of Brillo Cleaner & Degreaser at 1:20 dilution. Heat solution, but DO NOT BOIL, for 10-15 minutes. Drain, rinse with clean water at least twice and wipe dry. Do not breathe fumes.

### Technical data

Appearance	clear, colourless liquid	PH	12.5
Density	1.11 g/cm <sup>3</sup>		

The above data is typical of normal production and should not be taken as a specification.
