

Trusted. Simple. Effective.

Flash C3 Concentrated Disinfecting Bathroom

Cleaning and disinfection of bathrooms including toilets

Highly concentrated cleaner, for use with wall-mounted dispensing equipment of the Flash Professional Cleaning System.

Use Flash Professional C3

...for outstanding business results

Trusted

- From the well-known brand Flash.
- Delivering value and results that are trusted by professionals and their guests.

Simple

- Effectively complete 3 tasks with one bottle: Limescale, Soapscum/Body Soil, Disinfection.
- Easy to learn and use via colour coding, numbering and language-free icons.

Effective

- Removes soap scum/body soil and daily lime scale fast.
- Disinfects according to European guidelines EN1276 & EN13697 (15 minutes contact time).
- Suitable for removal of deposits and dirt from toilet bowls and urinals.
- Leaves a fresh pleasant scent.
- Leaves surfaces shiny.

★★★★★ Satisfy your guests

Cleanliness can help you improve your ratings & reviews and generate incremental business.

Minimize your total operating cost

The Flash Professional System helps create outstanding results fast. Accurate dosing every time with wall-mounted dispensers helps control cost in use.

Contribute to a more sustainable development

Refillable spray bottles are provided, which can reduce packaging waste versus ready-to-use products. The 2L canisters are made from recyclable material.

Care for your staff

The Flash Professional System is designed to be easy to learn. Colour code, numbering and language-free icons make it easy to use.

every experience counts.™

Technical information

Research & Development Corner

Unique Formula Balance

- Unlike many other acidic bathroom cleaners, C3 not only removes and prevents limescale build up, its unique surfactant system also effectively tackles greasy soap scum deposits.
- This is how the formula can be truly effective on both soapscum and limescale.

Technical Description

- **EAN code:**
- **Appearance:** Uncoloured Liquid
- **Smell:** Pleasant (perfume)
- **pH (neat):** 2.85
- **Density:** 1016g/L
- **Water solubility:** High

Safety Instructions

Please make sure your employees read and understood the product label and your COSHH assessment (Chemical Risk Assessment in EU) before using this product. The label contains directions for use and both label and SDS contain hazard warnings, precautionary statements, first aid procedures and storage information. SDS are available on-line at our website www.pgpro-msds.com or can be provided to you via the call center.

Usage & Dosing Instructions

For professional use only. Dose only through the P&G Professional wall mounted dispensing system.

Dilution for spray use:

- **Regular Cleaning: 50 ml/L (5%).**
Spray on the surface until thoroughly covered. Rinse and wipe with a dry or a damp cloth.
- **Power Cleaning & Disinfection: 100 ml/L (10%).**
Spray on the surface, leave to act for 5 minutes before wiping. At heavy soil, clean before disinfecting. Tilt the spray bottle opening towards the wall to avoid foaming and splashes in the eye when filling.

Do not expose to direct sun light. Dispose of any remaining product before filling the spray bottle anew. Do not use undiluted or with other dilution methods.

Biocidal Information

- Bactericidal according to EN1276 and EN13697 (at 10%/5min contact time).
- Yeasticidal according to EN1650 and En13697 (10%/15min contact time).

Where to Use

- Recommended for general washroom surfaces including floors, tiles, basins, showers, baths, toilets, bath taps, sinks and fixtures.

Where Not to Use

- Avoid prolonged contact with aluminum and stainless steel.
- Do not use on marble and granite or any acidic sensitive surfaces. If in doubt always try the product on a small hidden area first.
